

The Tremolo Harmonica Hymnal
The Tremolo Harmonica Hymnal, Tabs

This is a collection of hymns and Christmas music for the tremolo harmonica. Over many years of playing I have found that these work well on the tremolo harmonica. There are many other hymns that I enjoy playing on the tremolo that are not listed here.

I tongue block and add chords. See the tab explanation pages for how that is indicated. All of these tunes can be played melody only by merely playing the numbered note, or the highest numbered note if there is more than one note listed.

Tongue blocking is the preferred method to play the tremolo harmonica. Search online if you need an explanation.

The first pages explain how I tab. Next are the hymns. The last pages are Christmas music. Ignore any numbers written on those last pages, they were to put songs in order for a show.

Many of these songs can be heard on my Youtube channel called "Tremolo Harmonica" or on my Soundcloud page called Tremolo Rex.

Please feel free to share this collection. Please do not sell this. I intend for it to be free.
